About This Game

Run or Die is a fast paced Endless Runner that focuses on movement based abilities (and a huge Ion Cannon)! Players must make decisions in the blink of an eye and react quickly in order to make their way through a hazardous city environment where every run is different! Can you make it to the Lab to save Flow?

Warning: Run or Die is not a casual game!

Features:

- Tight controls
- The R.O.D Suit which gives you access to 5 different Abilities
- Native Controller Support
- 3 Playable Characters (including a catdog)
- Over 170 handcrafted maps
- Day & Night Cycle

-
- Endless Mode
 - Daily Runs in which players from all over the world run through the exact same city layout and have one shot a day to grab the highest score
 - Training Mode, hone your skills to prepare for the run
 - Challenge Mode, collect all the Intel and reach the goal
 - User Created Challenge Map Support
 - Steam Workshop Integration for easy sharing of User Created Challenge Maps
 - Online Highscores to compare your score with the rest of the world
 - Pixel Art crafted with love
 - Music by Vidboy & Lifeformed
 - Steam Achievements
 - A quick restart button (trust us, you will love that one)

“I’m waiting for you at the Doc’s lab! Come! Quickly!”

P.S.: Run or Die is only available in English, but there are no refined English skills required to understand and enjoy the game.

Title: Run or Die
Genre: Action, Indie
Developer:
Team Flow
Publisher:
Team Flow
Release Date: 11 Dec, 2014

I BOUGHT THIS GAME I SHOULD GET SOMETHING I SUPPORTED THIS GAME AND BELIVED IN IT AND I FELL OFFENDED FOR YOU TO JUST GIVE UP AND MAKE IT FREE TO PLAY

. This car and track are great but you never get to use them during the single player campaign. With that in mind I can't bring myself to recommend this DLC.. The game looks really it's a relatively original idea (from what I know). However, the game is not difficult, but tedious. You can try it for yourself, since this is a personal thing, but I do not recommend it.. Me and my bro had a blast playing through this game. Tons of variety. Usually it's a twin stick shooter but other times it feels like Wariorware or GTA or Metal Gear. Really funny dialogue too, and the music is great. Gotta say I did feel kinda weird shooting innocent civilians but in a good way. 5/7 perfect game. While the graphics aren't great and the gameplay is a bit awkward I still think this is a pretty interesting game. Moving around can be a bit clunky and the camera is a bit laggy. The actual story is kind of meh but it's only a short little demo. Can't expect much from a 20 min game really. I enjoyed the experience but I'd only recommend this game to people who happen to have an interest in space exploration and NASA.. this is very good!. Yuile And Yuyi Two VERY Great Friends Who Now do lots of stuff Together ^^ Yuyi Didn't really Like sports all that Much Esp Volleyball she was no good at it And she thought she sucked in her mind. Though Yuile helped and taught her the ways but one Little Accident Caused Yuyi Nose to bleed cause Yuile spiked the ball and she was really Sad that it happened. Down the road Her Sis Yuyi Was getting Married And was Gonna move away from town So she can live happy life With her Husband Thankfully Yuyi Arrived in time to see her off. Yuyi Helped Yuile About Makeup and Kanji so that she can get Better at it. But in all Very Good VN ^^ I loved it And Def would Rec this to people If you Like Heart to Heart Stories.. This is by far my favorite volume of Friendsim.

Elwurd is a great character with some hilarious dialogue (there's a slam-poetry section, 10/10), and all the paths with her have good progression and depth instead of abruptly dead-ending if you don't choose the "good" option.

Kupram and Folykl aren't as much fun compared to Elwurd, so I'd recommend getting them out of the way first. They're a cute duo with some funny bits, but their memes just aren't as fresh. I did get a hefty laugh from a hentai joke though, so you have that to look forward to.

Definitely recommend this volume overall though, it's one of the best, mainly for Elwurd. Idk who's writing all these Alternian waifus but they're killin' it.. They should call this game "800 strikes" because that's what it's gonna feel like at first. The pitching speeds seem real and there's a variety of pitches. Plenty of settings to dial it down though. I think this is my new go to baseball game because the learning curve and difficulty seems learnable and makes me want to play it again.

I have to say it might even be worth it just for the catcher mode. Sitting behind the plate with 90mph fastballs coming at you is actually pretty scary in VR. Very fun though!

Too bad there's no "full" baseball game mode. Where you choose which position you want to play. That would make it worth the high pricetag. As it stands probably more like a \$11-12 tops.

Seems like all the pieces are there. Running could easily be done automatically. This would be a great game to flesh out into a full baseball game.

works on Windows MR btw I'm playing it on a Lenovo.. There is so much goodness in this title already, and I can't wait to see how it grows.

Thematically in design and look it is dead on.

The shooting mechanics are almost perfect (still struggling with the rifles myself) and add to the tension and feeling of success when nailing a target from yards away.

I really like the different game modes that are already in the game, and looking forward to seeing what else the dev's can fit in.

Absolutely funny game with an apparent political hint. Nicely designed and very playable.. This game is a very cool experience. It's built around the lunar cycle, with certain areas only becoming accessible during a full and new moon. If you don't have time to plan sessions around that, then there's a way in game to cause a "time paradox", and overwrite the current night's moon. Alternatively, you can be a cheating cheater and change the date/time on your computer. You'll actually get an achievement for this, but you'll miss out on another one.

Some people are saying that this isn't really a "game", but I think that's bs. There's some light environmental puzzles, and some pattern-based combat, but ultimately it's an adventure game consisting of walking between areas. When I put it like that it probably sounds bad, but it's better than my description might lead you to believe.

The atmosphere is neat, the music's pretty good, and I found the art stylish. Some of the humor might fall flat, but in the end I had a good time completing this game.. This game overall is a great addition to the series and just adds more to the previous title.

My only complaint besides balance would be the constant memory problems.. a nice contrast to other games..a mixture of physics, puzzle and inventive level designs. A fun short game that can be beaten in an hour if you speedrun but will take a while to figure out naturally, and getting 100% is a whole other story, awesome game. 8/10. I'd get it for a dollar or two but nothing more really.
